

Wayne Bagnall MBE MSc CMIOSH MIDE MCMI: Asbestos & Demolition

My name is Wayne Bagnall MBE MSc CMIOSH MIDE MCMI an OSHCR Registered Consultant operating a specialist asbestos and demolition safety consultancy and engineering; Wayne Bagnall Consulting¹ with a small team providing advice, training and support to ensure safe and cost effective projects.

In the 1970's I studied Chemistry & Biochemistry for five years attaining a City & Guilds Full Technological Certificate (Part 111) equivalent to degree level. I continued with my education in management and safety gaining Membership with the Chartered Institute of Management (MCMI), a Certificate of Professional Competence in transport safety with the RSA, a qualified Demolition Engineer with the Institute of Demolition Engineers (MIDE), corporate membership with the Chartered Institution of Occupational Safety and Health (CMIOSH). In 2000 I was one of the first four people to be awarded a Masters Degree in Construction (Health & Safety) Management at John Moores University Liverpool.

I worked in the family business in Asbestos Removal and Demolition as a Director of the Bagnall Group Ltd. During my time with the company I managed major projects, continued to develop my personal expertise by various training, writing papers on asbestos and demolition safety issues and delivering presentations around the country at national conferences (IOSH, NFDC, ICE).

In 1999 I set up an independent consultancy, Wayne Bagnall Ltd, I have authored and delivered national guidance for the HSE etc and am considered by my peers to be a leading authority in this field.

I am on the HSE Occupational Health & Safety Consultants register (OSHCR)

My achievements, acknowledgements & experience include:

- 1987 Chairman of the North West Construction Safety Group
- 1989 Chaired a Major Safety Conference at Old Trafford M/C
